Washington, WA 99208 | munyiraallan@gmail.com | (917) 217-4160

<https://www.linkedin.com/in/allan-munyira/>

PROFESSIONAL SUMMARY

Cybersecurity professional with an M.S. in Cybersecurity and a B.S. in Software Engineering, with hands-on SOC training and experience in software development, IT administration, technical support, and cybersecurity research. Familiar with SIEM, security monitoring, log analysis, threat detection, vulnerability assessment, network analysis, and incident response. Hands-on lab experience with Splunk, Wazuh, Wireshark, Nmap, Nessus, Burp Suite, Metasploit, and a strong foundation in Python, Java, PHP, SQL, Linux, and Windows.

TECHNICAL SKILLS

Cybersecurity: SOC Operations, SIEM, Log Analysis, Alert Triage, Threat Detection, Incident Response, Vulnerability Assessment, Network Security, Web Application Security, Security Automation

Programming: Python, Java, PHP, SQL, HTML, CSS

Tools: Splunk, Wazuh, Wireshark, Nmap, Nessus, Burp Suite, Metasploit.

CYBERSECURITY PROJECT

AI SOC Analyst Assistant

- Developed an AI-focused project exploring automation of security-event analysis, alert prioritization, threat identification, and SOC workflows.
- Applied cybersecurity and software engineering concepts to improve the efficiency of security analysis and repetitive SOC tasks.

Mun Cyber Eye

Camera-based detection that spots criminal activity such as fights and shootings, then reports instantly to security agencies, police, homeowners, and schools.

- Detect fights, shootings, and related threats on camera
- Instant alerts to security agencies, police, schools, and homeowners.

NB: The Two Projects are still under development.

PUBLICATIONS

- Forensic Analysis Frameworks for Encrypted Cloud Storage Investigations
- Exploiting the Human Element: A Multivector Study on USB Attacks, AI-Driven Phishing, and Metadata-based Surveillance

PROFESSIONAL EXPERIENCE

Mun Cyber Technologies, Washington, Spokane, WA

Founder & CEO | Sept 2026 – Present

- Setting company vision and goals.
- Develop partnerships & Business opportunities

Yeshiva University – Katz School of Science and Health, New York, NY

Hands-On Security Operations Center Program Trainee | Oct 2024 – Dec 2025

- Gained hands-on exposure to SOC operations, enterprise security technologies, security monitoring, log analysis, alert investigation, and incident-response workflows.
- Utilized Splunk and Wazuh for security monitoring, log analysis, and threat detection in hands-on cybersecurity lab environments.
- Used Wireshark and Nmap for network traffic analysis, network discovery, and security assessment.
- Gained exposure to Nessus, Burp Suite, and Metasploit through controlled cybersecurity labs.

Makerere Innovation & Incubation Center, Kampala, Uganda

Website Developer & Designer | Apr 2022 – Aug 2024

- Developed and maintained websites, administered professional email accounts, and supported web-based systems.
- Upgraded an investment management system, improving withdrawal, deposit, approval, and referral functionality.

Ison BPO Uganda Ltd., Kampala, Uganda

Customer Care Executive | Oct 2021 – Jun 2022

- Provided technical support for software issues and assisted users with troubleshooting.
- Investigated transaction issues and educated customers about fraud risks and security awareness.

EDUCATION

Yeshiva University – Katz School of Science and Health, New York, NY

Master of Science in Cybersecurity | Aug 2024 – May 2026

Makerere University – College of Computing and Information Sciences, Kampala, Uganda

Bachelor of Science in Software Engineering | Aug 2012 – Jan 2017
